UNDERGRADUATE

Object-oriented programming (OOP) in Python
Data Structure & Algorithm
Linear Algebra
Statistics & Probability
Artificial Intelligence
Software Engineering
Operating System

HARD SKILLS

PROGRAMMING

Python • C++ • PHP

FRONTEND

React.js • Next.js • shadcn/ui • Tailwind CSS • HTML • CSS

BACKEND

Node.js • Express.js • Nest.js • Django •Python • Laravel • Socket.io

DATABASE

MongoDB • MySQL • PostgreSQL

SOFT SKILLS

Communication • Teamwork • Problem-solving
Time management • Critical thinking • Decision-making
Adaptability • Creativity

SOFTWARE

Postman • Git • GitHub • VS Code • Chrome DevTools • Docker • Firebase • Linux

ABOUT ME

Software Engineer with experience in building scalable web applications across E-commerce, ERP, and OTA domains. Skilled in Next.js, Node.js, Express.js, Nest.js, Django, Python and Laravel with a focus on clean code, efficient systems, and real-world problem solving.

EXPERIENCE

TRENDS BIRD LIMITED | Associate Software Engineer

Aug 2025 - Present | Dhaka, Bangladesh

- Built **STC 360** using Laravel (MVC architecture), implementing authentication and structured backend logic.
- Built **Giant BD ERP** a scalable enterprise resource planning system using Next.js and NestJS with a focus on modular architecture, performance optimization, and maintainability.
- Built and maintained **DBL Lifestyle** a scalable eCommerce solution using Next.js and NestJS with optimized backend architecture and responsive frontend design.
- Contributed to **Finger Flights (OTA platform)**, implementing API integrations, frontend features, and dynamic booking workflows.

PROJECTS

GIANT BD ERP

Enterprise Resource Planning (ERP) system designed to manage business operations efficiently. Developed with a Next.js frontend and Nest.js backend, supporting scalable and modular system architecture.

FINGER FLIGHT

Online Travel Agency (OTA) platform for managing flight bookings. Built with a modern full-stack architecture, implementing API-based communication, user authentication, and dynamic booking management features.

STC 360

Full-stack web application built using Laravel with MVC architecture. Implemented authentication, role-based access control, and dynamic data handling for efficient system management.
Active Link

DBL LIFESTYLE

Developed a scalable e-commerce platform for lifestyle products with features including authentication, product management, cart system, coupon system, and order tracking using Next.js and Nest.js.

E-COMMERCE

Developed a scalable e-commerce platform with authentication, product management, and cart system using Next.js and Node.js.
